Professional Summary

Software Developer and Data Scientist with experience in frontend and backend development. Proficient in HTML, CSS, JavaScript, and React, while currently expanding expertise in backend technologies, APIs, and databases. Strong foundation in Python for data manipulation, visualization, and analysis. Passionate about problem-solving, open-source contributions, and building scalable solutions.

Skills

- Frontend: HTML, CSS, JavaScript, React (Experienced)
- Backend: APIs, Databases (Basic), Node.js (Learning)
- Data Science: Python, Pandas, NumPy, Matplotlib
- Tools: Git, GitHub, VS Code, Jupyter Notebook
- Soft Skills: Problem-Solving, Adaptability, Collaboration

Projects (These are some of my projects)

Age Calculator

- Built an interactive age calculator using JavaScript. Implemented real-time validation and date handling.
